

Sunspots to Shakespeare

Staunton, Virginia

All-In-One Tours, Cruises & Receptive Services

In the heart of the Shenandoah Valley lies the little town of Staunton - the Queen City on the Great Wagon Road between the Blue Ridge and the Alleghenies. Staunton's historic charm and warm hospitality will make your visit an unforgettable excursion into America's past.

Visit **Sunspots Studios** where you will watch a glass blowing demonstration from one of the talented artist. After being totally captivated by the magic of glass blowing, head on into the gift shop where you will find all types of glass items, all created right in their studio. Among the glass items you will find one-of-a-kind art pieces, as well as functional art for the home and garden. Vases, bird feeders, garden art, oil candles, perfume bottles, gazing globes, and more glitter in our gallery.

The **Woodrow Wilson Birthplace and Museum & Library** is a must while in Staunton. One of the few original Presidential birthplaces open to the public, Woodrow Wilson's first home offers an authentic picture of family life in the pre-Civil War Shenandoah Valley.

A tour of charming **Historic Staunton** will show you a unique community of cohesive neighborhoods and a central business district with an impressive inventory of historic buildings and landscapes most of which date from the City's late 19th century boom-town growth. Also visit the **Thornrose Cemetery** which is considered one of the country's most beautiful and historic cemeteries. Complete the day at **Blackfriar's Playhouse**. Shenandoah Shakespeare is an entertainment organization that makes Shakespeare accessible to all with fresh, energetic productions. This is the world's only re-creation of William Shakespeare's original indoor theatre.
